About me

Full-stack Web Developer with 2+ years of experience building and maintaining production web applications. Strong in PHP (Laravel) for backend development, with hands-on experience in RESTful API design and relational databases (PostgreSQL, MySQL).

Experienced in building admin and internal interfaces using Vue.js, and collaborating across frontend and backend to deliver reliable, maintainable systems.

WORK EXPERIENCE

Esuhai Co., Ltd

Apr 2025 – Present

Full-stack Web Developer

- Developed and maintained internal web systems and backend services.
- Built backend features and RESTful APIs using PHP (Laravel).
- Developed admin and internal UI modules using Vue.js (component-based).
- Designed and worked with PostgreSQL databases.
- Collaborated with team members to improve system performance, reliability, and code quality.

Ringnet Services Trading JSC
